

NO MORE *FRIZZY* HAIR!

The Amazing Global Keratin Smoothing Treatment As Seen on 'A Current Affair'

The Global Keratin hair treatment is a keratin-based treatment that straightens hair naturally without harsh chemicals. It is a reconditioning treatment that transforms the hair and restores shine. This incredible treatment is designed for people who have curly, frizzy and damaged hair! By infusing keratin deep into the hair cuticle, Global Keratin uses hair's natural ingredient to achieve radical shine, beautiful smoothness and healthy, manageable style.

Everyone can benefit from GK Treatments, even over-processed and chemically damaged hair. In fact, the more damaged the better and the longer the treatment lasts. It deeply reconditions and repairs, making it so much more than just a straightening system.

The immediate result is soft, shiny, healthy & luxurious – and unlike other chemical treatments and relaxers, can be used on coloured or chemically straightened hair.

Developed in Brazil, GKT's formulation is kinder on hair, improving its condition and restoring resiliency to leave hair strong and elastic. Better yet, it weatherproofs hair against flyaway frizz and the effects of moisture. When hair is gorgeous, shiny and manageable every day, the time required to style at home is reduced!

GKT is cheaper than permanent hair straightening and because it's not permanent, can be washed out if desired. It can even be used over previous GK Treatments, leaving hair in better condition after each successive application. **The GK Treatment is more natural looking as the hair is not made pin straight – it still has body and bounce – and lasts up to 4 months, eventually washing out.**

The treatment eradicates unsightly frizz and maximizes shine, whilst nourishing and boosting condition. Your hair is always left feeling soft and smooth with stunning results, which are visible immediately after the treatment. Unmanageable hair nightmares are now a thing of the past!
